

## **SUMMARY**

The thesis *The Development of the Legal Regulation of Adult Education in the Czech Republic* addresses the legal regulation of adult education in the Czech Republic and its historical, social and international political context. The thesis describes and analyses the following elements: adult education legislation in our country from 1918 to present days, and its strategic, analytical and conceptual documents, key documents of international organizations, adult education legislation of the European Union, in Slovakia and shallowly in few other countries in order to provide a comparison, all based on law theory and andragogic terminology. The conclusion of thesis provides a critical evaluation of the current adult education legislation in the Czech Republic and drafts a new legislation substantively related to all the above components.
